 SAMPLE: Miscellaneous

PATIENT INFORMATION:
 Specimen: Throat swab

Test	ABN	Result	Reference	Unit
=> SARS-CoV-2 PCR		Negative		

SARS-CoV-2 nucleic acid was not detected by means of a polymerase chain reaction (PCR) test.

Clinician guidelines:

If the patient is at risk of COVID-19 disease due to travel or contact with a known patient, please ensure adherence to 14 days of quarantine.
 If the patient was asymptomatic at the time of testing, please maintain quarantine and repeat testing should symptoms develop. A negative result under these circumstances does NOT mean that the patient is not infected.
 A negative result cannot be used to certify that a patient is not infected for travel, work or other purposes.

Refer to www.ampath.co.za for further information.
