

Final Report

Regno / Barcode : 9071 / 056760
ID Number : 7004255140084
Patient Name : Ms.CLARK LOURENS ERASMUS
Age : 50 Years
Sex : Female
Tel no : 0788038353

Registered On : 01/07/2020 12:04:52 PM
Sample Coll : 01/07/2020 2:11:17 PM
Reported On : 01/07/2020 22:55:56
Sample Type : NASOPHARYNGEAL SWAB
Report Status : Final
Doctor : Dr.G L HUGO

MOLECULAR BIOLOGY

Result

SARS-CoV-2 (COVID-19) : NEGATIVE

GENERAL COMMENTS:

1. All results must be interpreted by a clinician or authorized health care professional with due consideration of contact exposure, clinical presentation and patient outcomes.
2. Due to the nature of the test, sample collection, storage and transportation will have an impact on the result.
3. The test is a molecular-based assay (PCR). False positives and negatives may occur for various reasons.
4. All test results are forwarded to the designated public health authorities in accordance with statutory provisions and governmental reporting protocols.

Interpretation of a NEGATIVE result:

A NEGATIVE result means that SARS-CoV-2 (COVID-19) was not detected. Negative results do not necessarily exclude infection with SARS-CoV-2 (COVID-19) and should not be the sole basis of a patient management decision. Retesting is advised if clinically indicated.

Interpretation of a POSITIVE result:

A POSITIVE result indicates the presence of SARS- CoV-2 (COVID-19). Patients are advised to contact their doctor immediately for clinical guidance and management. Self-isolation is necessary for at least 14 days unless hospitalization is required. It is further recommended that all close contacts also undergo testing for SARS-CoV-2 (COVID-19).

Interpretation of an INDETERMINATE result:

Please contact the laboratory immediately.

For consultation by referring doctors only, please contact:

Dr M Tait -Haematologist
